

Lucey Larcum, the poetess, is dead. Poor Jeff Davis; even his bones are not allowed to rest.

Just think of it! Two feet of snow April 20 at St. Paul.

An eastern syndicate has purchased the Los Angeles water works.

Canada has been directed by the British government to prepare for war. Pray, with whom?

H. D. Ross, of Flagstaff, is reported to have the inside track for secretary of Arizona.

The cry for old-fashioned motherhood arouses the suspicion that somebody wants to revive the slipper age.

Secretary Morgan of the Agricultural department has determined to push the sale of corn in Europe.

John Schardt, cashier of the Mechanics Saving Bank and Trust Company is \$80,000 "Schardt" in his accounts.

C. P. Huntington has instructed the officers of the Southern Pacific to name the Santa Monica wharf "Port Los Angeles."

Manitoba has set an example that might well be followed on this side of the line, by unseating a member of its legislature, for bribery.

The Atlanta "Constitution," and Louisville "Courier-Journal" are using the silver question as a club to whack the administration with.

Did the Tennessee legislature buy railroad tickets, or use "passes" when it visited Washington to see about its share of the federal oil?

The president is said to have accepted a pair of valuable carriage horses from a Virginia admirer. Is this to be taken as a part of the era of Jeffersonian simplicity?

William S. James and Thomas Jones have confessed to the murder in October last of Postmaster Good at Tarpey, California. Their motive was robbery.

If Mr. Cleveland kicks over the reciprocity bucket, as he now threatens to do, 'twill be rough on those who have been to so much trouble to prove that reciprocity is good democratic doctrine.

Ex-Gov. Campbell's assertion that the next governor of Ohio, will be a democrat, is insincere, or he would not accompany it with the statement that he will not be the candidate of his party if he thought there was any chance of being elected.

Some of the distinguished democrats who have become gorged with crow would like nothing better than a chance at Turkey; hence the popularity of the recent demands of the administration on the Sultan.

The extension of the time in which work may be resumed upon the Panama Canal, granted by the government of Colombia, is more like an attempt to prevent the building of the Nicaragua Canal than anything else.

Republican Senators and Representatives should read the recent speech of young Brigham Young about the Mormon in politics before they decide how they will vote upon the bill for the admission of Utah as a State.

Two balloon accidents occurred last Sunday in San Francisco. Miss Millie Hagle the victim of one of them had both legs broken and was injured internally by being blown against a building. It is thought she will die.

A man who kills a single individual is called a murderer and punished accordingly. A man who sold bogus medical diplomas to all comers, thus sending out an army of murderers, is only given six months' imprisonment by a New York court.

The democratic administration is a little slow in exposing the "frauds" its stump speakers and editors have said were on the pension rolls. If the aforesaid "frauds" are not produced and fired out, the democrats will stand convicted of willful misrepresentation.

A Washington special says that the government will refuse to uphold Minister Egan in granting an asylum to the recent Chilean refugees. Well, it looks a little late in the day for the government to refuse to uphold Minister Egan. The was upheld by the "government" which sent him there, and it matters little to Patrick whether subsequent "governments" approve or condemn his course.

The Phoenix Republican has served warning on Governor Hughes that he has very nearly if not quite offended it in some of his appointments. It raises that old, old ghost of "land grants" and holds it up as an object of fright. Just as though a governor could affect the validity of a land grant one way or another. If our neighbor cannot find something more tangible to attack Governor Hughes on than this land grant business, our advice is to let him alone.

Governor Hughes has started out on the right track to make a success of his administration. He has adopted the policy, which is a sound one, either in political or private life, of remembering his friends.

When success is achieved, too many people forget their friends in adversity, those who stood by them when dark clouds instead of sunshine shrouded their path and the principle of gratitude comes to the surface.

Such is generally short. Hughes has manifested spirit thus far in his administration and if he pursues his course he is bound to achieve victory.

A telegram to our contemporary from San Francisco says: "The 22d annual convention of the State Medical Society, assembled here yesterday. The Koeley cure was discussed. The consensus of opinion was that it had no real medical value, many terming it pure quackery." The Koeley cure will move right along curing, just as it has for the last decade, withstanding the "consensus of opinion" of the California doctors. Many of the most notable cures made by the Koeley treatment have been in the medical profession. Despite the action of the California society, the Koeley treatment is endorsed by many of the leading physicians of the United States. The only trouble with the Koeley treatment is that the discoverer of it departed from the beaten path of professional etiquette in not making known his treatment. He is realizing the profits of his discovery, instead of dividing them up with the profession. It is for this that his treatment is attacked. In this respect he may be vulnerable, but with a record, carefully kept which shows that, of over 100,000 patients treated for the liquor habit, a permanent cure has been effected in over 96 per cent of them, resolutions of quackery against the treatment will have but little weight.

The democratic circus has commenced in Phoenix. The Barnesites, the Zulickites, the anti-Hughesites, the anti-Cameronites and all the other shining lights of democracy, who wanted the position of governor for his individual self, and all those who did not want L. C. Hughes to get it, have commenced a war against the chief executive of the territory. When Mr. Hughes was appointed, they threw up their hands and applauded. When Governor Hughes reached Arizona, they joined the multitude to do him honor. They attended the magnificent reception given him and drank saline water from the same goblet used by the governor. Within less than a week after his inauguration they have set on foot a scheme to crucify him, and have already woven a crown of thorns for his head. The newspaper employed for the purpose, the only purchasable one in the territory probably, is the Phoenix Republican. The charges preferred are of the most flimsy sort, simply that Mr. Hughes was influenced by some one in the selection of a portion of his appointees, and refused to consult some one else in the selection of others. In other words, that he did not surrender to his enemies and consult them as to the policy he should pursue. It is well known, however, that the paper making these charges against Governor Hughes is now, and always has been from its inception, a black-mailing sheet. Republicans and democrats alike have been the object of its venom and wrath when they have failed to drop a nickel in its slot.

How California Editors will Visit the World's Fair.

Henry G. Tinsley, editor of the Pomona Progress and chairman of the Executive Committee of the California Press Association, which has in charge the editorial excursion from Sacramento to the World's Fair next May, is getting things in shape in southern California for the excursion party.

Bona fide editors and members of the California Press Association and the Editorial Association of Southern California, and their wives, are invited to participate in the journey to and from Chicago by the Southern Pacific, Union Pacific, and Chicago and Northwestern Railroad companies. The railroad companies have been deceived so often by bogus editors and newspaper men on these excursions, that they will, on this affair, make an extra effort, through the Executive Committee of the California Press Association, to exclude all but legitimate members of the editorial associations of the State.

The dozen new vestibule sleeping cars that have recently been delivered by the Southern Pacific Company from the Pullman shops will be used in the editorial train, besides two of the newest and most elegant dining cars that have ever been built.

The sleeping cars have been lighted by gas and furnished with toilet rooms, baths and reading compartments. It is intended to have the train the handsomest yet run out of Sacramento under the management of the Southern Pacific and Central Pacific railroads. William H. Mills and H. E. Huntington, of those companies, are much interested in the success of the excursion.

The train will leave Sacramento on Monday evening, May 8, and will arrive in Lake City, there, the citizens have invited the California editorial craft to a carriage drive about the city, a banquet at the Knottford Hotel, a side excursion to Garfield Beach, and a hop in the evening. Another day and evening will be spent by the party by invitation of the governor of Colorado and the board of trade of Denver in that city. The programme of entertainment in Denver has not yet been decided upon, but it will include a reception in the Capitol, and an evening banquet at the St. James.

The editorial party is scheduled to arrive in Chicago on Sunday morning, May 14. The new hotel, the Mecca near the World's Fair grounds, will be the headquarters of the Californians, and reduced rates have been made for the party for two weeks.

The American Congress of Editors will meet in Chicago on May 18, and the programme of exercises includes papers and addresses upon matters of importance to the craft, by a number of California editors.

The railroad companies have asked that no children shall go upon the excursion, and that no more than two representatives from any one newspaper shall be permitted to enjoy the hospitality of the railroad and the Pullman companies on this journey.—L. A. Times

PITHY, POINTED AND PERTINENT.

It seems that Gorman is also "outside the breakfasts," along with Hill and the rest.

South Carolina is noted for "bad breaks," and the state running the barrooms is only another added to the list.

When first elected President Cleveland stated very positively that he did not wish a second term, but nobody seems to have heard him say anything about a third term.

What is nonsense to some is fortune to others. For instance "Boom-day," which has netted Lottie Collins \$25,000 in a few months.

Georgia has followed the example of Texas, in burning a negro murderer. Next.

A man who hauls down the American flag isn't shot under this administration; he does it in obedience to the President's orders.

Ex-Secretary Whitney can now fully sympathize with the feelings of the late Daniel Manning when he retired from the first Cleveland cabinet.

Having a corporation lawyer for Attorney General is a democratic specialty, so what's the good of showing up Olney's corporation connections.

Commissioner Blount should be exhibited at the World's Fair; he is the only man who ever lowered the American flag and lived to tell of it.

Mr. Cleveland may be called on when Congress meets again to designate the clause in the Constitution, or the United States Statute, which confers upon the President authority to transfer the authority vested in a legally accredited minister to a foreign country to a man who has no legal status whatever, and who may prove the most difficult task he ever undertook.

The socialists in Brussels appear to be tough citizens, differing in only one respect from our socialists; they are as ready to fight as to talk.

The "underground railroad" to Canada is again being worked to its full capacity. This time the Chinese are its patrons.

Fear of the result had much more to do with the attitude of the democratic Senators towards investigating Roach than did the Constitution.

States rights appears to be an almighty good thing for U. S. Senators with shady records.

The president was an easy winner in the first round of his four-year contest with the Senatorial wing of his party. With several exceptions every nomination he made was confirmed, although there were several of them that should not have been.

The wild-cat bankers are waiting for their innings, and there are indications that they will have to wait longer than next winter.

An article in an exchange is headed "A madman at the helm," but it doesn't refer to the present pilot of the ship of state.

Grover, I, is the only president who ever sent a man abroad commissioned as "my personal representative," and the result will probably show that the idea is entirely too kindly for plain American stomachs.

READ THIS AND THEN THAT.

On the day following the announcement of Governor Hughes' appointment, the Phoenix Republican gave them the following unequivocal and hearty endorsement:

"As was expected, the officers appointed by Gov. Hughes are Democrats, but they are citizens having the best interests of the territory at heart, and the Republican does not believe that the interests of great and growing territory of Arizona will suffer in their hands."

In its issue of April 19, the same paper contains a column article of the most venomous and malicious character, in which not only Governor Hughes but several of his appointees are attacked.

We care nothing particularly for this attack on Governor Hughes and his appointees, so far as they are concerned individually and collectively, and do not mention this circumstance for the purpose of rushing to their defense, for the reason that each and all of them are capable of taking care of themselves. It is in the interest of a noble and honorable profession, however, that we denounce such inconsistent utterances of a paper. The diametrically opposite sentiments are expressed within a few days of each other in the daily issue of the paper, and are likely to appear in the same issue of the weekly. Is there any man so blind in Arizona, who cannot see the damnable principle of black mail bristling from every line of the Republican's article of April 19, when contrasted with the honest sentiments expressed three days previously?

Every paper in the territory suffers from the utterances of black mailing vampires engaged in the business, and the confidence of the public generally in the profession is lowered every time that such barfaced attempts at black mail are perpetrated.

"Stargo," "Orange Blossom," and Mercantile Cigars can be bought only at Aiken's Cigar Store.

Fresh Candies received each week at Aiken's. Finest assortment in town.

WANTED.—An active person, of good character, to travel with expenses paid, representing established house; salary \$780 with increase; enclosed reference and self-addressed stamped envelope, general manager, lock drawer P. Chicago.

Fine Imported Cigars just received at Ford's. These cigars are excellent.

Arizona's Governors.

Arizona has been governed since 1864. Following are the governors and lengths of their terms. To be appointed secretary of the territory is a precursor of being governor, judging from the fact that several of the governors named have served as secretaries. The longest term was held by Gov. Safford, from 1870 to 1878.

The list begins with Gov. Goodwin, who began in 1864, with the organization of the territory. Gov. Goodwin's administration is remembered by few Arizonians of today. He subsequently went to Congress, and his secretary, Gov. McCormick, succeeded him.

Gov. McCormick served till 1870, when he, too, went to Congress.

In 1870 came Gov. A. P. K. Safford of Nevada, who officiated till 1878, nearly the expiration of his second term, when he resigned to go into mining at Tombahe.

Gov. Hoyt, Gov. Safford's secretary, filled out the unexpired term. He is now chief justice of the supreme bench of Oregon.

Gov. John C. Fremont of Missouri, the famous old general, comes next, serving four years.

Gov. Tittle, of Nevada, succeeded him, he serving till 1886.

Gov. Zuleik, of New Jersey, followed, he occupying the gubernatorial chair till the spring of 1889.

Then followed the republicans of the Harrison administration.

Gov. Wolfley served until 1891.

Gov. Irwin of Iowa, after a term possibly shorter than any of his predecessors, stepped down for Gov. Murphy in 1892.

Gov. Murphy's term has just expired.—Tucson Star.

What this section of Arizona wants is capital, owned by honest individuals, or corporations who are in search of legitimate opportunities for investment in mines. To such there are abundant opportunities. It has been cursed time and again by stock jobbing schemes, intended to rob the unsuspecting, and as a consequence monuments of failures are to be found scattered through the hills. These failures in nine cases out of ten can be traced directly to mismanagement. Ignorance, in some instances, has been the cause of this mismanagement, while in others it has been a "cliché" game on the part of the managers. The best property in the world can be wrecked by dishonesty or ignorance in its management, while a very ordinary property can often be made dividend paying, by an honest, economic and intelligent management.

The Fresno Republican thinks that Mrs. Mackay's efforts to gush about her love for America and "dear, delightful old San Francisco" are evidently not received in the spirit which the distributor of the bonanza king's millions intends they shall be. Many people are so unfeeling as to suggest that if the lady is really so badly stuck on the country which raised her from the kitchen to a bejeweled associate of kings and princes, she could better demonstrate her affection by spending her time and money here than by scribbling with delight over a flying trip to the bedside of her lonely husband, an gifted treasurer. This is perhaps a rude and selfish opinion of the distinguished lady, but the discord of her words and conduct are so apparent that they naturally provoke that sort of comment. Mrs. Mackay's popularity in America is inversely proportioned to that which she purchased abroad.—Ex.

To the Citizens of Prescott.

The undersigned has just purchased an ice manufacturing machine of the very latest design in every respect, and which he will have in operation just as soon as it can be received here and placed in position. The machine will have a daily capacity of making fifteen tons of ice, and the ice will be made from the very purest water obtainable, and will be clean and clear and free from all defects and impurities. It will be sold at as low a price as natural ice was ever sold for, and will be delivered to all parts of town. All parties, who are consumers of ice, are respectfully solicited to reserve their orders for the season until they secure prices and terms from me and see samples of the ice manufactured.

Very respectfully,
MARTIN MAIER.

SONDAY INSTEAD OF SUNDAY.

A Proposition to Change the Name of the Day of the Week.

The first day of the week should be called Sunday in honor of him in whose remembrance the day is celebrated.

A large class of our fellow citizens, notably the Protestant Episcopalians, even now prefer to call it "the Lord's day" rather than any other name, and this is the shortest way to express and utilize their preference, for the "Son" is the Lord Jesus Christ.

Our Lord said, "For the Son of Man is Lord also of the Sabbath." The Sabbath is part of his heritage, and therefore really is the Son's day.

The day used to be called this in old English times, when the word was spelled "Sone-day," and it was so called in old German, where, ever and anon, the day is found spelled "Sohenday."

The Phoenician origin of the usual name of the day, as being appropriate to the worship of the sun, as Monday was that of the moon, has been disputed in behalf of Persia, where the fire god was also worshipped, and also in behalf of other countries and isles of the sea.

But in either case the name Sunday is heathen and ought not to be tolerated in Christian lands.

It is true that Christ is the "Sun of Righteousness," according to the prophet Malachi, but the reference of the origin of the name of Sunday to the worship of Bel, or Rah, or the sun, is so imbedded in the language that an attempt to twist the name Sunday into a reference to the "Sun of Righteousness," and thus make it applicable to Messiah, would be a hopeless task.

The calendar ought to be reformed now no less than in Julius Caesar's time—reformed as to the daily no numerals, so that the weeks shall no longer perpetuate the remembrance and power of heathen deities which are devils, but shall be made to spread the knowledge and influence of the true religion of God.

Wednesday as a souvenir of the worship of Woden; Thursday of Thor; Saturday of Saturn, and so on. All these names ought to be consigned to limbo, and other appropriate names should be given to each day of the seven in a useful attempt to unshackle men's minds from the domination of false notions.

And yet new names ought not to be too great a departure from the present accepted nomenclature, for the people could not easily learn and adopt an entirely different set of names.

It might encourage legitimate marriage and God's benediction institution of the family if Tuesday were to be called Tuesday, and if Wednesday were to be called Wednesdays. Saturday should be changed to Sabbathday.

But we are not now proposing an improvement in the whole list—perhaps some other hand will do this. We are only proposing a reform as to one day which can be accomplished by the least amount of change. It is simply to close the top of the u. The proposed change philologically and etymologically only amounts to a part of one vowel making u into o—and yet, morally, the change from sun to son is the change from heathenism to Christianity.

We do not see that any really good reason can be urged against this change.—New York Mail and Express.

To Catch Trout With a Cabbage Leaf.

The time for this delightful sport should be the height of summer. Select a trout pool and provide your self with a very large cabbage leaf, which place on the bosom of the pool, anchoring it by means of a string and a plug of lead close to the bank. The trout in the pool are very fond of sunshine, but they dread the July heat.

Seeing, however, what appears to be a large translucent green umbrella, Mr. and Mrs. Trout and Troutings come up to the surface and look beneath the cabbage leaf, whereupon you shoot them with a fowling piece, being careful to use only No. 7 shot, in order not to lacerate the beautiful skin of the fish. Have ready a baker's peel, with a very long handle, to land your trout. They only want brailing at once and require no sauce except hunger.—Sala's Journal.

A Singular Affliction and Recovery.

A remarkable instance of loss of a faculty is that of a physician, who in boyhood found himself suddenly deprived of the power of speech. He was a man of middle age and robust appearance. His hearing was perfect, and he could understand all that was said, but his replies were always communicated by pencil and paper. One day this physician announced that the power of speech had returned as suddenly as it had originally left him. He added that he was entirely unable to ascribe the recovery to any cause, and Sir William Dalrymple confessed that his experience does not enable him to offer any explanation.—London News.

Public Libraries in Asia.

There are about 20 large public libraries in Asia. The Royal Asiatic society library in Bombay has 80,000 volumes, and the Tiflis library, established in 1846, has 35,000 volumes and receives annually 12,000 from the Russian government for the purchase of books.—Exchange.

CON STIPATION.

Afflicts half the American people yet there is only one preparation of Sarsaparilla that acts on the bowels and reaches the important trouble, and that is Joy's Vegetable Sarsaparilla. It relieves it in 24 hours, and an occasional dose keeps you regular. We refer, by permission, to C. E. Trilling, Locust Avenue, San Francisco; J. R. Brown, Fetaluma, Cal.; H. S. Wins, Geary Court, S. F., and hundreds of others who have used it in constipation. One letter is a sample of hundreds. Write, "I have been for years subject to bilious headaches and constipation. Have been so bad for a year back have had to take a physic every other night or else I would have been a headcase. One bottle of J. V. S. put me in splendid shape. It positively cures constipation."

As J. V. S. is positively the only Sarsaparilla compounded to control constipation, insist on Joy's and don't be talked into taking any other.
